Mold Remediation Gap Analysis

Do you have a policy or protocols on how the District will handle a water intrusion or mold situation?

Do you have anyone assigned to assess and address mold issues?

If so, what is there title:

If so, do they have any training to safely plan a response action:

Do you use a consultant to assess mold issues?

If so, do you have guidelines for when to test for mold?

Do you have contract specifications for mold remediation?

If so, do they specify approved products?

If so, do they specify containment requirements and separation of ventilation systems?

Do you have any of the following mold management program components:

- trained personnel to do mold remediation yes, no, NA
- personal protective equipment for remediators yes, no, NA
- approved products for cleaning mold yes, no, NA
- guidelines on mold remediation yes, no, NA
- any equipment for drying wet areas yes, no, NA
 - if so, what equipment:
 - if so, what is it used for:
